

Bolex News

← Three new accessories are now available for the Pan Cinor

- (A) Filter adapter ring to accept Series VIII filters: ring only price—\$4.25.
- (B) Close-up lens No. 1—for shooting between 3 feet and 5½ feet. Price—\$15.00.
- (C) Close-up lens No. 2—for shooting between 2 feet and 3 feet. Price—\$15.00.

The exploded view of ring and hood combination shows the order of attachment of ring, close-up lens (or filter), sunshade and dust cap. The sunshade and dust cap are supplied as an integral part of the Pan Cinor lens itself.

→ Here is the Bolex "zoom" combination that TV movie makers and 16mm spot news film men have been waiting for. The De Luxe H-16, *without* the Eye Level Focus or Octameter, but fitted with the Pan Cinor lens and its own calibrated finder, as shown for only \$675.00—no Federal Excise Tax. This camera and lens combination—another Bolex FIRST—is less than half the price of any other zoom-type lens alone!

← Close-up of Close-up lens and adapter ring for the Pan Cinor.

→ Here is an advance picture of the accessory that all Bolex 3-Demons have been waiting for. Its use is described in Ernst Wildi's article in the Spring Issue of *Bolex Reporter* for close-up 3-D shooting at 24 inches and 40 inches. Price of the Bolex Stereo Close-Up device is \$67.50 complete with viewfinder masks.

→ The new combination filter adapter and sunshade (filter not supplied) also fits on the front of the Bolex Stereo Close-Up device: two units are required (one for each aperture as shown) at a price of \$9.80.

← The new combination filter adapter and sunshade unit, price \$4.90, comes as a complete unit to fit on the front of either the basic Bolex Stereo or the Close-up attachment device. The unit accepts standard Series V filters (shown in the picture, but *not* supplied).
